

Assembly Instructions | 2027-36-13

NOTE: Second person is helpful for easier assembly

1. Take legs out of box. Angle brackets as desired and tighten so both sides align
2. Loosen nylon screws (Located on bottom of the brackets)
3. Slide one shield into brackets at a time. Make sure both sides are align.
4. The center of the shield should match the center of the brackets.
5. Screw in nylon screws tightly to assure shield stays in place.
6. Repeat on other side

* Ice Housing not included
